

The EZ-Irrigators

From American Medical Industries™

The EZ-Irrigators

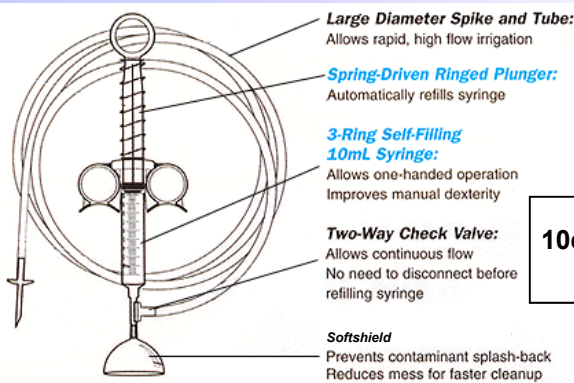

Now in 2 sizes!

EZ-Irrigators™ Continuously Refillable Irrigation Syringes

The easy to use EZ-Irrigator™ is a syringe connected to a flexible plastic irrigating tip and a 6 foot length of tubing spiked for entry into a bag or reservoir of irrigation solution. Working the plunger delivers the irrigation solution to the tissue and automatically refills syringe. Sterile clear view packaging.

- Two Models:
 - Spring-loaded 10cc syringe
 - Two-handed 30 cc syringe
- Double check valve prevents retrograde flow to assure sterility
- 6 foot flexible supply tubing taps into any high volume reservoir
- For use in both the clinic and in the field
- *Optional Flexible Tunnel/Irrigation tip available*
- *Optional Softshield directional shield tip available*
